

SELF-ASSESSMENT

KITCHEN MAINTENANCE CHECKLIST

		YES	NO
	Does your kitchen use equipment that has a high risk of catching fire – such as deep-fat fryers, cooking ranges, grills, woks etc.?		
2	Do you have wood fired equipment in your kitchen?		
3	Is your exhaust system regularly inspected for grease build up?		
4	Is your exhaust system regularly cleaned and maintained?		
5	Are your kitchens appliances regularly inspected and maintained?		
6	Are your kitchens appliances clean and free from oil and grease build up?		
1	Do you operate your exhaust system whenever the appliances are pre-heating, heating, cooking or cooling?		
8	Do you have suitable fire extinguishers located throughout the kitchen?		
9	Are your kitchen personnel trained in how to respond to a fire in an emergency?		
10	Is equipment such as a gas stored in a suitable location when not being used?		
11	Do you have a dedicated kitchen fire suppression system installed?		
12	If you have a dedicated fire suppression system installed, is it being maintained in accordance with Australian Standards?		

If you answered NO to Questions 3, 4, 5, 11 or 12, please contact us for a no-obligation kitchen system review today.
